

Clayton W. Seitz, PhD

cwseitz@iu.edu
cwseitz.github.io

PERSONAL STATEMENT

I maintain a diverse background and specialize in the development and application of machine learning models. Recently, I have developed deep generative models as well as analytical probabilistic methods for modeling imaging datasets. These models have been applied to fluorescence microscopy to fuel biological discovery.

EDUCATION

Doctor of Philosophy, Physics

Indiana University

Thesis: *Advancing super-resolution microscopy for quantitative in-vivo imaging of chromatin nanodomains*

Master of Science, Biophysics

University of Chicago

Thesis: *Stable cell assembly formation in excitatory-inhibitory neural networks*

Bachelor of Science, Physics, Magna Cum Laude

Indiana University

Minor: Mathematics

Bachelor of Science, Informatics, Magna Cum Laude

Luddy School of Informatics, Computing, and Engineering, Indiana University

Concentration: Mathematics

EXPERIENCE

Graduate Researcher

2022-Present

Indiana University, Indianapolis, IN

- Designed diffusion models/score-based generative models and general convolutional networks in PyTorch for modeling image datasets in super-resolution fluorescence microscopy
- Developed general probabilistic models for high-dimensional imaging datasets and associated Bayesian methods for statistical inference tasks
- Developed novel microscopy systems for super-resolution imaging of living cells
- Investigated the impact of point mutations of epigenetic proteins on the structure of nucleosome nanodomains and complement experimental data with molecular dynamics simulations

Graduate Trainee

2020-2022

University of Chicago, Chicago, IL

- Performed Monte Carlo simulations of spiking cellular networks to relate neural network architecture to spiking dynamics
- Utilized fluorescence microscopy to measure temporal dynamics of calcium concentration in MIN6 cells

Undergraduate Research Assistant

2019-2020

Indiana University, Indianapolis, IN

- Developed an image processing package in Python for processing large volumes of images generated by fluorescence microscopy

AWARDS	<i>NIH Graduate Training Fellowship</i> University of Chicago, Chicago, IL	2020
	<i>Travel Award and Lightning Talk Invitation</i> Physical Sciences in Oncology - Minneapolis, MN	2019
	<i>Hudson and Holland Scholarship for Diversity and Inclusion</i> Indiana University, Bloomington, IN	2013-2017
	<i>Founders Scholar</i> Indiana University, Bloomington, IN	2013-2017
	<i>Cigital Scholarship</i> Indiana University, Bloomington, IN	2016-2017
