The kinetics of Interferon- γ induced RNA flow

Clayton W. Seitz

January 1, 2023

Summary

Attempting to cover everything from imaging strategy to analysis method

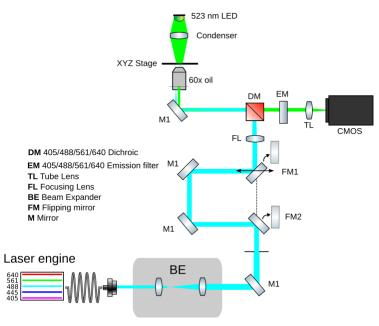

Part 1: Methods

- Multiplexed imaging strategy
- ► Image stitching and registration
- ▶ Recap of the compartment model for RNA flow

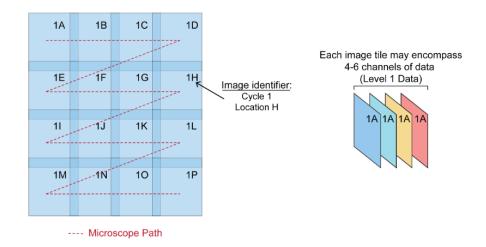

Part 2: Application

- ► Gene selection based on RNA flow model
- Brief comments on probe design

Imaging setup

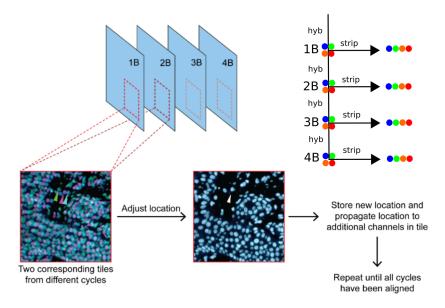

4-channel acquisition

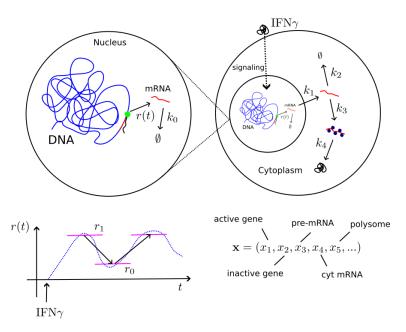

Courtesy of the Laboratory of Systems Pharmacology at Harvard

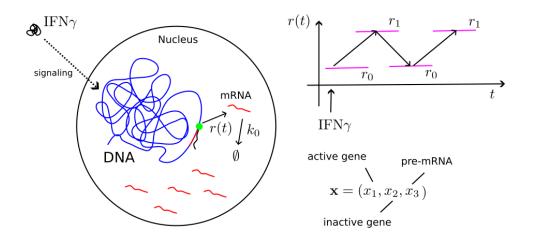

16-channel acquisition and registration

A model for RNA Flow

Starting small: telegraph model of gene expression

Does the model fit improve when you add more states?

The principle of Interferon- γ induced transcriptional memory
